DAVID WILCOX

BREAKFAST AT THE CIRCUS 1987

PUSH PUSH PUSH

Into the struggle we're born

Some people call it a rat race

Blind ambition all over his face

Push can turn to shove

The old man said to me

Where will it end

I just can't see

Cheap shot magazine

Tell me all about the scene

Take one now it's absolutely free

What to think

Where to eat

Boy they really know the street

Look at these designer jeans

Everybody wants to push push push

Why do people have to push push push

Why do we always try to push push push push push

Small mind

Big time crime doesn't pay

What about old you know who

Runaway with everything

Houses boats limousines

Here him sing you can't catch me

Everybody tries to push push push

Why do people have to push push push

Everybody tries to push push push push push

Pressure cooker

Flip your lid

Here's looking at you kid

Have another cheers to health

Going out

Fooling around

What's that burning crashing sound

Must be something killing something else

Tied up
Nailed down
Dead before he hit the ground
Face to face with the gang

Way to go
Let it flow
Smash the window
Running crazy
Round and around and around

Normality
Formality
Time to face reality
Happens to the best don't you know

Time to deal
Time to heal
Guess we haven't got a deal
Honey are you mad at yourself

Everybody wants to push push push
Why do people have to push push push
Everybody tries to push push push push push
Why we always try to push push push
Everybody wants to push push push
How come people have to push push push push push

Push push push
Push push push
Push push push
Push push push
Mmmmmmmmm
Want to push
Push
Like to push
