Your baby is a good cook
His baby has a cool look
Her baby wrote a great book
But my baby does the grind

She does the grind
She does it all the time
She satisfies my mind
My baby does the grind

Your baby drives a fast car
His baby looks like a movie star
Her baby went too far

But my baby does the grind
She does it all the time
I walk the line
My baby does the grind

Your baby is a real flash
His baby talks too much trash
In God we trust
All the rest pay cash

But my baby does the grind
She does the grind
But all the time she's mine all mine
My baby does the grind
