And suffocate the light in me  
Throw the stones that kill the truth  
Deception must be absolute  
Rape the mind that will not die  
Its sharpest throes must multiply  
Dementia unresisted  
Psychosis of the mind  
Generation X termination  
The blind leading the blind  
Towards the ends of the earth  
Sweet cyanide seduction  
Grown numb from the poison  
That guides mankind beyond all  
Hopes of rebirth  
Tear further into violence  
And send forth the blade that  
Slaughter each cell  
Stillbirth redemption  
Sterility dances to the rapturous  
Sound of the knell  
Let fevers rage and ravage  
The deluded minds of all  
Surrender to atrocity  
And yield by our fall  
Stigmata children  
Malady spawn  
Downward resolution  
The coming of dawn  
Sacrilege Sanctity  
Pestilent seat  
Dominion emerging  
A world at their feet  
Infidel armies  
Viral release  
Consensual redeemers  
Penitence of disease  
Weavers of famine  
Starvation made whole  
Their sepulchres spreading  
Fulfilling their role  
Sickness overcomes us

Past plagues ressurect  
Generation X termination  
The blind leading the blind  
Towards the ends of the earth  
Sweet cyanide seduction  
Grown numb from the poison  
That guides mankind beyond all  
Hopes of rebirth  
Let firestorms rend their emerald  
Cloaks  
Over a world that judgement  
Provokes  
Assailing retribution  
The end of the line  
Prosperity goes under hatred divine  
Like bloody waves on shores alight  
A devil soils with black what's white  
And as he treads to sow his seed  
He rids the earth of its  
Scavenger breed  
The seas in rising tidal flow  
Its liquid curse on us bestow  
A killing force within us hide  
Breeding wrath  
World suicide  
Generation X termination  
The blind leading the blind  
Towards the ends of the earth  
Sweet cyanide seduction  
Grown numb from the poison  
That guides mankind beyond all  
Hopes of rebirth  
Tear further into violence  
And send forth the blade that  
Slaughter each cell  
Stillbirth redemption  
Sterility dances to the rapturous  
Sound of the knell
