[Verse 1:]

Can you see me baby- I been watchin- I been starin....
U drive me crazy-
Wonderin what's underneath what you are wearing-
U know- I see it in your eyes-
Pure infatuation- I fantasize....
I give into temptation when I'm chillin next to you-
U got me contemplatin all the things I wanna do-
To you- ooh you're on my mind-
Losin concentration on a natural high-
N you been tellin dirty secrets through your eyes
Tell me that you want me even if it's all lies-
Ooh it's on tonight....
U got my curiosity- I'm feelin your vibe-
But if it ain't goin down between you and I-
I'll still fantasize.

[Hook:]

All I do is fantasize....
Can you N I bring this fantasy to life?
Slow N easy is the way I wanna love you tonight-
Goin crazy- want your body on mine-
If you want me- put it on me- ain't nobody
Been lovin me right...
I just gotta have you N I want you all night-
All the things I wanna do to you- I fantasize.

[Verse 2:]

Now I see you comin up to me- ooh. What a fantasy.
U know what I need N you got me feindin- you ain't
leavin-
You'll be receivin good lovin all night long-
Ill be feelin on you like I been feelin this song-
I wanna see if you can get down- get down- lets get it
on.
Front- back- side to side- I don't give a damn
As long as you are doin it right.
You're dealin with a real woman- I won't bite-
Give in to what you feelin- come N give it a try.
I'd rather be with you- yeah. Ooh I fantasize.
Ooh- I'd rather be with you.

[Hook:]

All I do is fantasize....

Can you N I bring this fantasy to life?

Slow N easy is the way I wanna love you tonight-

Goin crazy- want your body on mine-

If you want me- put it on me- ain't nobody

Been lovin me right....

I just gotta have you N I want you all night-

All the things I wanna do to you- I fantasize.

[Verse 3:]

Ooh. Ahh. You're makin me sweat N its getting hot-

Lookin in my eyes- givin everything you got-

If you're doin it right- I'll give you anything you want.

I'm caught up in this fantasy- I'm outta control-

We finally reached our destiny- it's time to let go-

I can hardly take it- you been hittin my spot-

U got my body shakin as you're breakin me off.

Ooh. I feel you deep inside- feels so good I wanna cry-

Don't stop. Oh- I- I just wanna blow your mind.

Ooh. I fantasize- about you baby N it's on tonight.

I fantasize- about you. I fantasize.

[Hook:]

All I do is fantasize....

Can you N I bring this fantasy to life?

Slow N easy is the way I wanna love you tonight-

Goin crazy- want your body on mine-

If you want me- put it on me- ain't nobody

Been lovin me right....

I just gotta have you N I want you all night-

All the things I wanna do to you- I fantasize.

[Outro:]

Touch me- tease me- hold me- please me-

Kiss me- caress me- lick me- undress me-

Love me- squeeze me- want me- need me-

I'm fantasizin about you baby.
