[Intro:]

Ooooh... yeah- yeah...

[Verse1:]

I ain't never been the one to speak on situations-  
But here I am on my own-  
Everybody's all up in my mix talkin' N they hatin'...  
Damn- here we go.  
All up in my business- suddenly there's witnesses-  
Speakin' on what I do.  
What I do ain't a concern to you-  
Gotta dip gotta move in order to prove- nothin' to you-  
Cuz I love myself- ain't nobody else gonna bring me  
down...  
I'ma rise N shine N I'ma be just fine-  
I'll see ya from the top- catch ya on the flip side.

[Hook: ("Na Na Na Na" all the way through hook)]

See ya from the top- see ya from the top yeah-  
Ain't nothin' gonna bring me down.  
You ain't gonna stop- stop- stop me-  
Ya got me goin' harder now...  
See ya from the top- see ya from the top yeah...  
You can't take me down-  
Nothin's gonna stop- stop- stop me- yeah...

[Verse 2:]

Ooooh now a set back is just a set up for a come back-  
And I intend to bring the heat and go hard-  
Get back everything I worked so hard for-  
Get my back bone and protect my heart.  
Now ya gotta fall hard if ya gonna get up-  
You gotta go hard if you wanna come up...  
You're gonna make it through-  
If they hate on you- shake what they say-  
If ya step back the real will respect that-  
Ya need to check that other drama at the door-  
Let em all hate- let em bust from the side-  
Leave em at the bottom let em watch ya take flight...

[Hook: ("Na Na Na Na" all the way through hook)]
