"Shinin' Star"

Visit "[Shinin' Star](#)" on MotoLyrics.com

[Verse 1:]

You're the light in my dark
You're the sky, I'm the stars
You're the mind, I'm the heart
You and I are part of each other
Baby ain't no other man above ya
Baby cuz ya got it like that
Ooooh...
There is somethin' in your aura (aura)
Shinin' harder than the Northern star,
You're my Northern star...

[Hook:]

Boy you know you are-are,
You're my shinin' star-ar,
A match made in heaven
You got my attention yeah, you're my, you're my,
You're my shinin' star, my shinin', my shinin' star...

[Verse 2:]

Feelin' like I'm floatin', got me gone in outer space,
Got me glowin', ooh and I'm lost in a daze...
You're shine's got me blind,
Lovin' eyes can never see every time you come around
me
I can't see nobody but you and me standin' out like
celebrities,
They treat us like some superstars, we got star
quality...

[Hook:]

Boy you know you are-are,
You're my shinin' star-ar,
A match made in heaven
You got my attention yeah, you're my, you're my,
You're my shinin' star, my shinin', my shinin' star...

[Whisper/Rap:]

"Shinin' like the big dipper, glowin' like a star"
Yeah you fittin' that description and you know I fit the
part,

Cuz you got a lil somethin' extra bout you that I like
I'm a grown ass woman and I don't waste time,
Standin' out in a crowd shinin' loud above the rest,
You and I can get down and the world will be
impressed,
I can see the bigger picture if our world's collide,
You and I combined together we gon' shine....

[Hook:]

Boy you know you are-are,
You're my shinin' star-ar,
A match made in heaven
You got my attention yeah, you're my, you're my,
You're my shinin' star, my shinin', my shinin' star...

[Breakdown:]

I'm a Leo, with me you're the center of attention,
Don't need nobody else it's me and you until the end...
Cuz boy you are my shinin' star....

[Hook:]

Boy you know you are-are,
You're my shinin' star-ar,
A match made in heaven
You got my attention yeah, you're my, you're my,
You're my shinin' star, my shinin', my shinin' star...
