[Intro: Davina]

Can you take it back?...  
Can you take it back?...  
Oh can you take it back?...  
Take me, take me back...

[Woodie:]

Let's take it back to the tracks  
Lookin at the Antioch bridge N smoke stacks.  
That delta breeze in the winter could freeze  
But in the summer was a blessin' for those with no a/c-  
Late nite behind potato barge is where them downtown  
Aantioch Norteno's are  
West twomp- west eleventh- west fourth  
When the cruise hits Friday we come out in force  
Strapped up of course- prepared to kill but was our last  
resort  
We all had a simple goal- keep the peace  
But leave the disrespectful in the streets deceased  
In '93 before dickies had them double knees N old e's  
N Mickey's we was guzzling- back when money was  
another thing-  
N knowing who's who wasn't puzzling  
So many homies gone-  
Can only praise their souls that live on in our memories  
from days of old...  
So many homies gone-  
Can only praise their souls that live on in our memories  
from days of old...

[Hook: Davina]

Take it back to the days when the songs they would  
play  
They would take me away... Take me- take me away...  
N everyone was havin' fun... N everyone was havin'  
fun...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...

[Big Tone:]

Take me back to the days of old  
White wall tires triple 4 times gold  
Old school bumpin' when we cruise on the stroll  
4 cars deep rollin' to the carshow...  
Rollin' hella clean- rollin' hella deep- creep throwin' 14  
Sippin' on my heem when I pull to the scene  
2 fine jinas tryna holla at me- back in '98 was the days  
for me  
Lil knucklehead homie I was raised to be  
Only 14 on my lowrider bike on the late night hype in  
another gang fight  
Old school ben davis shirts N sh\*t- nike cortez with  
them chuck taylor kicks  
Ditchin' highschool just to kick it with the click  
Gather up the homies- hit the san jo strip- Friday  
Saturday  
Party all night- sunday barbeque kick back N get high  
Pull up in the whip then wash my ride  
On the Sunday stroll- look at me I'm lookin tight  
Alright alright I'm a pimp- slash g- northern killafornia  
Mob coupes N chevy's- 'member me- I'm the one that's  
creased  
Old english letters on my crisp red tee...

[Davina:]

I see you papi- you know you lookin' good  
I love to see the homies still posted in the hoods-  
creased down  
Strapped up- dickies- khakis- rockin' chucks  
We keep it gangsta- keep it old school N we'll never  
switch it up...

[Hook: Davina]

Take it back to the days when the songs they would  
play  
They would take me away... Take me- take me away...  
N everyone was havin' fun... N everyone was havin'  
fun...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...

[Davina:]

Growin' up in northside Fremont  
U'd find me in Cabrillo or posted on the g-block  
Those were the days when I was just a lil homegirl  
Take ya to another place- I'm takin' you to my world  
Strikin' with the homies take it back to the lakes  
Barbeques at Los Cerritos N we'd chill at Northgate

But things ain't the same as those days fade away  
N everyone has changed but the memories remain...  
I miss those days when life was fun...  
I miss those days when we were young...  
When I hear the songs they were playin' back then  
They always take me back- then I'm young again  
Driftin' on a memory  
Reminisclin' on those days N how good it used to be....

[Hook: Davina]

Take it back to the days when the songs they would  
play  
They would take me away... Take me- take me away...  
N everyone was havin' fun... N everyone was havin'  
fun...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...  
Can you take it back? Can you take it back?  
Oh can you take it back? Take me- take me back...

I miss those days when life was fun...  
I miss those days when we were young...
