[Verse 1:]

I been watchin while you sleep. So peaceful N heavenly  
U look to me. I cant wait til you wake up N see-  
That I let you be. So grateful and thankfully- you are  
wakin up to me  
And there ain't nobody else but you and me.  
And ooh. The whole night through-  
Doin all the thangs that we love to do-  
Spendin time together baby all night long-  
It's ecstasy we're feelin N it feels so strong.  
U are why I sing this song- it feels so right that it can't  
be wrong-  
While you sleep- I wait patiently. For you to wake up-  
Wakin up next to me.

[Hook:]

I love the way you love me.  
This is how it is N this is how it's supposed to be-  
I'm watchin you sleep peacefully-  
Cuz I'm still with you N you're still with me.  
I just love the way you do.  
My sleep is sweet when you watch me too-  
Ya know this is my favorite place to be it's true-  
I love wakin up next to u.

[Verse 2:]

Ooh. Your eyes meet mine- I can see you like that I'm  
still by your side  
What we have is hard to find- I appreciate you N never  
waste our time-  
And you. you pull me near- I kiss you soft N whisper in  
your ear.  
I'm still here. N you respond back with a smile sincere.  
I love havin you next to me- there's no other place that  
I'd rather be.  
Cant you see- you set me free- you make it easy on me-  
this is meant to be-  
As we lay. Face to face- I hear you say- baby wont you  
just stay.  
I pray this feelin never goes away.  
I wanna wake up to you every day.

[Hook:]

I love the way you love me.  
This is how it is N this is how it's supposed to be-  
I'm watchin you sleep peacefully-  
Cuz I'm still with you N you're still with me.  
I just love the way you do.  
My sleep is sweet when you watch me too-  
Ya know this is my favorite place to be it's true-  
I love wakin up next to u.

[breakdown:]
