"Dig Me A Hole"

It's hard to breathe in the city
It's easier to drink
Come to my house, we'll sit in the dark
And try not to think
About the green fields, the way the land feels
All we left behind
Oh, how a dream can block out the sun
And cloud the mind

Tear me
From my hometown
Dig me
A hole in the ground
Silently, I fall too (so) far down
Tear me
A hole in the ground (x2)

It's hard to breathe in the city
It's easier to drink
So come to my house, we'll sit in the dark
And try not to think
