Who's going to shoe your pretty little feet  
Who's going to glove your hands  
Who's going to kiss your red ruby lips  
Who's going to be your man  
Papa's going to shoe my pretty little feet  
Mama's going to glove my hands  
Sister's going to kiss my red ruby lips  
I don't need no man  
No man  
The only women he ever did love is on that train at  
dawn  
The only car she ever rode was  
The only woman he ever did love is on that train and  
gone  
On that train  
On that train  
On that train  
Who's going to shoe your pretty little feet  
And who's going to glove your hands  
Who's going to kiss your red ruby lips  
And who's going to be your man  
Who's going to shoe your pretty little feet  
And who's going to glove your hands  
Who's going to be your man  
(On that train)  
(On that train)
