Standing out on the pavement  
Every day feels the same  
I saw you facing my dreaming  
Couldn't recall my name

And I don't wanna know  
Close my eyes and let go  
I can hardly see  
What it's doing to me  
I don't wanna fight  
You're in love with the night

Walking on gravel and cement  
It's always different from the day before

I've got a lot to forget  
All pictures in a drawer

And I don't wanna know  
Close my eyes and let go  
I can hardly see  
What it's doing to me  
I don't wanna fight  
I'm in love with the night  
I'm in love with the night  
I'm in love with the night
