I watch a world under siege  
I watch a world out of relief  
The twisted bodies of our youth  
Taste the shame of their own blood  
The age of wrath, we're all doomed to die  
But justice is far from our hands  
I don't know what they're trying to prove  
Hate your neighbour if he's not like you

I could stand here just for the night  
I could watch the children cry  
Burning houses, empty rooms  
Face the new world

A young sweet girl is going to bed  
She's anxious 'cause she's not going alone  
Her own father wants to feel her  
Sex! Sex! Sex! Sex!  
It's not sex, it's not love, it's awful waste  
She will never feel the love to a man  
His incestuous addiction destroys her life  
It's not a fiction, it's everywhere  
Take me out of this place, out of this hate  
The Chaos surrounds us hour by hour  
If the world is Charon then what is hell?

Come to me  
Come and see  
Come to me

This path is long, an eternal inferno  
Who gives the right to take a life in one's hands  
If you don't have the knowledge  
To resurrect one from the dead  
You should not be so eager to deal death sentences  
While they're killing themselves on the Balkan  
For country, for colours, for religion  
We're all the same  
We're all the same

If God exists, well is he proud of this?
