Rain descends from sea again  
Aviso of arriving fall  
Serene evening of the human whore  
Scorn by retrievers horde

Transgressors !  
Masquerade  
In it's sickest form  
Centuries as yet unclaimed  
Oppressed wraiths  
Redeem their peace

Wrath cast on Pearly gates  
Chariots scream for war  
Shadowed mad mountains rise  
Black void o'er palace of Christ

Transgressors !  
Masquerade  
In it's sickest form  
Centuries as yet unclaimed

Planetary purification  
OUR EONS DAWN
