Drowning into the sea of vanity  
Ocean drawn of mans worth  
By my god and grace I am reborn  
In hatred to kill again  
Nature unbound  
From beyond the light and dark  
My birth descents  
Sick delusions of the man  
Behold the fall of god  
I kill again  
Vail eternal  
Values tainted and raped  
Death takes control  
Nature unbound  
From beyond the light and dark  
My birth descents  
Sick delusions of the man  
Behold the fall of god  
I kill again  
Nature unbound  
Beyond the dark and light  
For those are the lost  
Dreaded paths of right
