[Part I: To Dream]

The sun is setting now  
This summery bathe in moonlight  
Veiled like starlit plateau of Leng  
Now as the pour approaches  
And the wind has breathed the last mementos  
Of winter, nether streams awake vaporous  
And summernight is vested

These paths are abandoned  
Only moon dancing on the bordering stones  
Like arms twisted by pain  
The top of the firs create a shelter to old river  
And the mist is filled with silvery column

Now the sixth fullmoon is on the increase  
And the cromlech awakes  
Here, the hidden point in horizon  
Grows...  
Trans neptunian dreams descend  
And I lay myself to rest...

[Part II: Through The Cavern Of Flame]

To the cavern of fire  
Where the seven hundred steps  
Lead to Enchanted Wood

I pass

The open is desolate  
Wind as only wanderer...  
Hay sways like moonlit sea  
And the torn answers  
The strange game of colours begins  
And the stars sheen rhythm  
Kadath opened,  
The feast of silhouettes

I yearn to enter..  
To feel, to know

From the towers painting I learn...  
A painting of time, spiral portal to  
Timetales of eternity

Humans fate revealed...
