So came the night  
Cast it silvery light  
Upon sorrowed sight  
His friends lying dead  
The pale moonlight  
H3 was laying face to the ground  
He was crying for his mother  
While his guts came gushin' out  
Why? Why war had chosen him  
Where is your god now that you need him?  
Night on earth  
We suffer on, we die here  
Cradle of the human dirt  
Kill yourself so you can wake up  
Again the moon clang in the sky  
Elsewhere the woods hid the terrible crime  
From the deathcamp chambers  
You could hear the children's demise  
Another prey for the mentally blind  
Another prey for the dissonant mind  
Night on earth  
We suffer on, we die here  
Cradle of the human dirt  
We carry on, we die here  
Night on earth  
We suffer on, we die here  
Cradle of the human dirt  
Kill yourself so you can wake up
