They have been down so long  
I can hear them singing  
hear their hearts  
feel their passion  
feel their scars

Doors are shut  
To Time and fate  
It was for us us to share  
This useless hate  
For us to share and we failed

Black void shrouds the earth  
Soil vomits the fire  
And scars the seas  
Doomwatchers we are  
Just staring the feast

Time passes slowly by  
Like a boat so old  
On the morning river  
Where the water is truth  
and its surface Shivers  
Go now the moon is waning  
The Beasts are out and you're all alone  
Leave now and hope for dawning  
Storm draws near and you're far from home

Hear me now our time has come

All pride has been raped  
To feed the light  
The true fiends of Christendom  
Hear me we are the dragon

The abyss, the sign  
The only wine of life  
The abyss, the wine  
you drank and spat it out  
Lifes infidel  
for now there's no dawn...

They have been down so long  
I can hear them singing  
hear their hearts  
feel their passion  
feel their scars

Doors are shut  
To Time and fate  
It was for us us to share  
This useless hate  
For us to share and we failed

Go now the moon is waning  
The Beasts are out and you're all alone  
Leave now and hope for dawning  
Storm draws near and you're far from home
