

Dawn Of Solace

"I Was Never There"

Taking distance Walking one step behind
Like a shadow You're simple minded and blind

If you are unable To take a stand
Or even understand

Ignorance is bliss Close your eyes
And your innocent

You never saw me I was never there
You never knew me I was never there
One by one My memories become
One by one My memories become
Erased, Undone

Burning bridges Leaving ashes behind
Breaking bonds between Isolating

I'm not running Away
Not even moving Just observing increasing

Absence of light Around me
