Fell my oath is over  
My soul spreads it's wings  
A shroud will hide your beauty  
No hope left inside me

I've traveled around the world  
To reach eternal life  
No signs of hope ravish my soul  
I'll kiss the wind goodbye

I've persecuted the legends  
Across Carpathian crests  
Inside of rare old temples  
They've lost their ancient [illegible]

Rumours of Tezimisces  
Guides me to the old Prague  
No rests of the vampires  
Only tales and crazy fables

I can feel the pain  
You won't see the life again  
I wish to hear the echoes of eternal life

In my desperation the rope covers my neck  
In my desolation the noose slips away

("Resting in my comma I can't feel anything  
Don't where am I there'll [be] no  
More awakening")

The void will turn my soul to none[nothing?]  
I feel you're dead inside my soul  
There'll be no more sun in our eyes  
I [haven't?] found the eternal life

In my darkest hour shadow took [illegible]  
With a cold kiss she [fled?] me

Now you've chosen darkness I'll give you a new life  
Come with me I'll show you the wonder without sun

On that eve of full moon a dark angel gave to me  
The gift of [eternal?] youth smiles my destiny

(New embraced...)

Finally is over the gift inside o' me  
I haven't found it but it has found me

("You don't know the price of this you'll be my servant  
now  
I ignore who is your bride but now I'm the only one")

The void will turn my soul to none  
I feel you're you're dead inside my soul  
There'll be no more sun in our eyes
