I am not alone now  
Youre lying next to me  
But youve got very old now  
And youre dying I can see

You dont know Im with you  
Diseased and deaf and blind  
And although you cant see me  
Theres still sadness in your eyes

Because I know you remember  
How it feels to be free  
But for now and forever  
In darkness youll be  
Looking for me

I cant believe you  
Too sick to say goodbye  
And when I come this way again  
I wont find you alive

Now I see your lips move  
Youre praying for death  
Here comes your answer  
To seal up your breath

Oh no!
