You sit there in my shadows
And you call it your relief
Don't be the one with bad eyes for
The things that I could see
(Don't give me that)

The darkness has no armor
Need protection from the air
High hopes through time passing
When I see I want you there

[Chorus]
I can't believe
You're the one for me
If it was this easy to find you
I should be ready for a fall
I should be ready for a fall

Now my wonders rally
Around the person I once was
Like a bird that I've been helping
Hope you're healed and strong
You never know when you might have to fly

[Pre-Chorus]
Where will you go after me
Where will you go after I set you free
And I don't know you from a page in my book
Though I should
Though I should

[Chorus]

Where will you go after me
Where will you go after I set you free
And I don't know you from a page in my book
Though I should

[Chorus Out]
