verse - willie  
it's a cold,cold night  
rain is fallin'  
it's been that way quite a few days now  
fresh off the road  
and i'm feelin' this might be the day  
and then who knows  
i might finally see your face baby yeah

pre-hook  
and although i'm tired  
imma keep on pressin' on  
cause' i gotta find ya  
baby girl it won't be long  
and it's just like fire  
damn that shoulda been my bone  
and i know it won't be long  
till' i find that rib that i own

hook  
cause any day now  
ya comin' home ???  
where you at now  
where you at now

could it be today  
could it be tommorow  
i don't know, either way  
it's gotta be any day now

verse - que  
girl i can find us getting hotter, hotter  
sittin' up waitin' everyday  
for something that's laid up for ya  
but i ain't gonna rush you no (cause' good things  
always come to those who wait)

so imma just fall back  
but don't make a move girl wait for me
