I'm feeling crazy cause I said some things that I didn't mean

And I've been selfish looking out for nobody but me'oo

If I had a chance, girl I'd take it all back

If I had a wish, baby I'd make you forget that

I was the one, the one who made you run away

Didn't think I'd see the day?

I've been waking up by my lonesome

Losing everything cause I want one

Now someone else is in the picture holding you

But I can't believe who?

I can take you setting fire to my Bentley Continental

Driving by my house, putting bricks through all my windows

I could even take it if you found somebody new

It's the last thing I expected you to do

Anything, not the homey, no

Anything, how could you be so cold

Could have fell for anybody

Why did it have to be my friend?

Girl, anything but him?

Love has a code

Girl you didn't have to take it there

I lost a lover and a friend

Girl it just aint fair

He was like a brother to me

At least that's what I thought

And now he's all in the sheets

Rolling in that bed I bought

I could be dirty

And do the same thing to you

That wouldn't be cool?

Now I'm waking up by my lonesome

Just bout lost everything cause I want one

Now someone else is taking over loving you

Just can't believe who?

I can take you setting fire to my Bentley Continental

Driving by my house, putting bricks through all my windows

I could even take it if you found somebody new

It's the last thing I expected you to do

Anything, not the homey, no

Anything, how could you be so cold

Could have fell for anybody

Why did it have to be my friend?

Girl, anything but him?

Don't want to come off too petty

Girl I don't want to be that dude

I never saw myself as someone who'd be stuck on you

Don't really think I'll ever be ready

I don't know if I've done something wrong

Keep it 100 girl, how long has this been going on

I can take this heartbreak

I can take your wedding day

If I keep it 100 girl

It's like icing on the cake

And nothing bout this whole damn thing

Makes sense to me, makes no sense to me

I can take you setting fire to my Bentley Continental

Driving by my house, putting bricks through all my windows

I can even take it if you found somebody new

It's the last thing I expected you to do

Anything, not the homey, no

Anything, how could you be so cold

Could have fell for anybody

Why did it have to be my friend?

Girl, anything but him?

How could you do this girl?

Do this to me

How could you do this girl?

I can't believe
