Destroyed and left to face the suffering a shattered  
fragment is all that remains a shattered fragment of the  
strength once left before destroyed and left alone  
alone no emotions left hatred is all that can survive  
existence persistence in the vain hope to to return alive  
when fighting is but a reflex on all sides blades are  
drawn fool muthafuckas can never kill the hatred  
formed destroyed and left to face the slaughter already  
beaten down a fragment of the strength once  
possessed before destroyed and left alone alone no  
emotions left hatred is all that can survive existence  
persistence in the vain hope to to return alive
