Verse 1

Your eyes meet mine and the feeling is magical
I try to find the words to make you see
Cause I've been over it all time and again
And I think that you must think I pretend
When I share from my heart all that you really are

Chorus

Cause girl don't you know that to me you're a miracle?
I'll say it over and over and over again
And if you won't hear me when I say you're beautiful
I'll say it over and over and over again

Verse 2

You try so hard to brush off what I say
All I want to do is make your day
Cause I've been over it all / time and again
And I think that you must think I pretend
When I share from my heart all that you really are

Chorus

Cause girl don't you know that to me you're a miracle?
I'll say it over and over and over again
And if you won't hear me when I say you're beautiful
I'll say it over and over and over again
