

## **Day Of Contempt "From The Inside"**

Visit "[From The Inside](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Hatred boils over into  
Scald your face, in rage consumed  
And it just feeds me  
Decayed from the inside  
Decayed from the inside  
Flesh burnt face, what a waste  
But it's all that I know  
Tried to let your actions slide  
But the hatred shows  
Every move shows the truth

I see you try to survive  
Because all that burns in me  
Is my one reason for life

Its coming down to this  
I have nothing left  
All the rage, Ive kept, I have nothing left  
Its all that I have left, and it just feeds me
