"Hole In My Hand"

See the marker stone, see the heavy load
See the burden on my head?hum?
See I can?t move in with my lantern gone
I need you only friend to shine in me
And I?m not afraid to show my heart
I?m not afraid to let you start in my life again

With a hole in my hand, and a strength to my stand
With a flame in my heart, burn in me again
With a hole in my hand, and a strength to my stand
With a flame in my heart, burn in me again
With a hole in my hand, with a hole in my hand?

See the ropes are long and they hold on strong
To tie me to the end?gone
See I can?t move on with my freedom gone
I need you only friend to set me free
And I?m not afraid to show my heart
I?m not afraid to let you start in my life again

And I?m not afraid to show my heart
