[Verse 1:]

Drive into the unknown; we don't say a word turn up the
Radio
Miles of silent conversations, searching through the
Stations, we sink into the road
We just drive when it's not ok. We just drive
Accelerate...

[Chorus:]

Down this long highway we'll find a way
On this long highway to say the things that we've been
so
Afraid to say
We'll find our way through lies and pain, it'll be ok.

[Verse 2:]

Headlights shine on the street signs. Watch them
passing

By reflections in your eyes
Hearts broken by the distance, love turned to
resistance
Leaves me so alone
We just drive when it's not ok. We just drive
Accelerate...

[Bridge:]

And we'll hold each other strong, as we weather
through
The storms
Even though the road is long, we'll drive all night just
To make our way back home.
Down this long highway...
