

Day Of Suffering "Elegy"

Visit "[Elegy](#)" on MotoLyrics.com

Sifting through the refuse
The shell of what was once a human life
Mutilated, torn from the womb
Mankind's final solution
Innocent, yet callously butchered
Murdered by demons in white
Mutilated, torn from the womb
Mankind's final solution
Lust is our god, a choice of pure evil
Systematic domination,

Perpetuated through the lie of freedom mother
Giver of life, deny this degradation mother
Strong and compassionate
Resist your destruction
Elegy, this war will wage on
Whether it be in fire or in blood
But the warning has been given
The slaughter of the innocent children must end
