

Day Of Suffering "Visualize Industrial Collapse"

Civilization, this civilization
Lament of the human race
Foresight forsaken in the name
Of technology raped, our mother
Our eyes of her beauty
Resistance, under the cover of darkness
This dying world will hear our scream
Visualize industrial collapse
Redemption, corporations burn to the ground
The eclipse of Eden

Is brought to the violent end
Salvation, gaia's lush embrace
Our ultimatum, extinction, or to
Visualize industrial collapse
As cities lie in ruin
And the machines rot in dormancy
Artifacts of a dead world
Life begins to flourish in renewal
Visualize industrial collapse
