There's no other love
There's nobody else thinking of
Only you baby you special how could I ever forget you
And let the moment slip away
We've been here for awhile
And I just wanna take you away
You got me doing things I'd never do
I can't stop feeling and dreaming about you, girl
And about your love it feels so real to me
You know what to say and you know just what to do
Come get me

[Chorus]

What you got for me
I wanna see
I've been waiting way to long
(Got me losing my cool)
Don't know what I'm gon do
You got me going
You got me going hey

I cant wait no longer
My anxiety is building up
Moments turn into hours and hours to days in my mind
Can someone tell me time
I don't wanna wait in vain
And I don't wanna deal with this pain
You got me doing things I'd never do

I can't stop feeling and dreaming about you
And about your love it feels so real to me
You know what to say and you know just what to do
Come get me

[Repeat Chorus]

So beautiful (So beautiful)
Wont you let go (Wont you let go)
I wanna know see I gotta know if your ready (I've gotta know)
For a moment so special (Baby I don't think your ready)

Just let me be
Be all that you need
You got that thing that I want and Iâ€™m ready
Ready to give you my love
You already know it
Girl you got me going
Come get me

[Repeat Chorus]

Know what I want from you
So what you got baby
You know I wanna see
What you can do with me
Girl if you only knew
The things that we can do
Iâ€™m ready to receive
Just what you got for me (p. diddy's part)
