"In My Bed"

In my bed, don't be shy, don't be scared
Let's get right, take that chance, baby it's alright
Don't gotta rush, we got all night

We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
We rockin'

When I come around all the beds stay rockin'
Big things poppin' 'til the cops come knockin'
Don't give a damn if the cops come knockin'
They can keep on knockin', we still ain't stoppin'

That's a rock at your top droppin'
Playin' in the sheets with the slow jam rockin'
The TV's on but we ain't watchin'
I'm focused, man

Take your position, bed to the kitchen
Friends they see me
I been missin', where I been, on a mission
Touchin', squeezin', huggin', kissin'

Girl, when I'm alone with you
This is what you make me do
You know it's goin' down
Every time that you come in to my bed

In my bed, don't be shy, don't be scared
Let's get right, take that chance, baby it's alright
Don't gotta rush, we got all night

We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
We rockin'

Ain't comin' up for air, I'm swimmin'
Cookin' it up so hot like kitchen
Doin' my thing, got your best friend wishin'
She was in your shoes with me

Sex in the sheets, right out the bed
Say that you wanna go again
Runnin' my fingers through your hair
I'm focused, man

Take your position, bed to the kitchen
Friends they see me
I been missin', where I been, on a mission
Touchin', squeezin', huggin', kissin'

Girl, when I'm alone with you
This is what you make me do
You know it's goin' down
Every time that you come in to my bed

In my bed, don't be shy, don't be scared
Let's get right, take that chance, baby it's alright
Don't gotta rush, we got all night

We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
We rockin'

And when I'm next to you it's plain to see
Don't need to look further, you're part of me
Don't break away from lovin' me, baby you're all I know
So don't be scared to go all the way with me

In my bed, don't be shy, don't be scared
Let's get right, take that chance, baby it's alright
Don't gotta rush, we got all night

We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
We rockin'

In my bed, don't be shy, don't be scared
Let's get right, take that chance, baby it's alright
Don't gotta rush, we got all night

We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
We rockin' in my bed
