Success measure through conformity  
Your ties your noose to tight to breath  
I watch you hang from suck-suck-society  
Time has left you old, cold and self absorbed  
With minor things that i choose to ignore  
Like sucking up and giving in to them  
The ones that suck us off from the inside  
When you gonna realize

[Chorus:]

Lifeless corpses flesh rotten carrion  
Bleeding they wont lie down  
Their being spit upon  
Im in no hurry to assimilate  
Let us starve as you feed on hate  
FUCK you 'cause you can't relate to me

So you fuck up and die,  
Destroy yur life, brainwash your own mind  
Fight and focus on the fear intake  
Trapped inside you will escape  
Destroy yor own life

[Chorus]

Be boy  
What's it gonna be boy  
Gotta big mouth can't be yourself  
Just be yourself
