Thankful to be alive no anchor no chain is holding down
on me And I can say I'm under the philosophy that
everyone around here stops looking down on me

Calling all the pigs of hate Banging on your front gate
Let's start this meeting Let's come to order Now we're
back to where we started

Back to where we started I raked away I she'd my skin
My sanctity My confidence from face to face and from
within and deeper still this violence

Calling all the pigs of hate Banging on your front gate
Let's start this meeting Let's come to order Now we're
back to where we started

I spent it all I took the pills I made the grade I'm deeper
still I saw the sights I ride the ride I sacrifice I realize

See how we kick and we fight See how we kick and we
fight See how we kick and we fight See how we kick and
we fight
