All across the country underneath the red street lights.  
punker's making money to buy beer on a friday night.  
it's squeegee night! sick of sparing change no ones  
gives a shit. first we'll fight the pigs later we'll get  
pissed. it's squeegee night! this job gets me by keeps  
me high. it's squeegee night in canada. all my life been  
told to earn an honest buck. they cut me off welfare  
and now i'm really fucked. it's squeegee night. trying to  
stay away from job related stress. got better things to  
do than trying to be the best. it's squeegee night. a  
couple more bucks we're out of here! it's squeegee  
night in canada!
