

Day26

"Stadium Music"

Visit "[Stadium Music](#)" on MotoLyrics.com

Verse 1:[Willie]

Stage set, lights on

Now play that intro, let me check my microphone

It's bangin', so strong

You wave your hands in the air as you sing along

[Hook]

That's how my love will make you feel, feel

Put your body front in center; for real, for real

So let it stay right there, don't go no where

Ain't no other show, can't even compare no no

Chorus:

My love is Like stadium music,

Put your whole body through it

We got it all, flashing lights, big screens, fireworks,
video screens

Ain't nobody on this stage but me

My love is like stadium music

Put your whole body through it

We got it all, flashing lights, big screens, fireworks,
video screens

Ain't nobody on this stage but me

My love is like

Verse 2: [Robert]

Round 2

Second set

Imma Pro so I ain't lost my breath yet

I saved the best part for your favorite song

And when we get there imma do it all night long

[Mike]

That's how my love will make you feel, feel

Put your body front in center; for real, for real

So let it stay right there, don't go no where

Ain't no other show, can't even compare no no

Chorus:

My love is like stadium music

Put your whole body through it

We got it all, flashing lights, big screens, fireworks,
video screens
Ain't nobody on this stage but me

My love is like stadium music
Put your whole body through it
We got it all, flashing lights, big screens, fireworks,
video screens
Ain't nobody on this stage but me
My love is like

Bridge: [Qwanell&&Robert;]
It's part of the show [imma need your full participation]
Baby imma take your body away [like we on vacation]
I'm on a mission, don't be afraid to lose control
No innerbitions, baby just let your body come with me
[Come on, come on]
So let your body go [Come on, come on]
Better stay right there, don't go no where
Cause no other show, can't even compare

My love is like stadium music [stadium music]
Put your whole body through it [put your whole body
through it]
We got it all, flashing lights, big screens, fireworks,
video screens
Ain't nobody on this stage but me

My love is like stadium music [oh oh yeah]
Put your whole body through it [oh oh, oh oh]
We got it all, flashing lights, big screens, fireworks,
video screens
Ain't nobody on this stage but me

My love is like...
