Call in the troops and load up the bombs
We are we are we are we are
Marching to war and a war can't be won
We are we are we are we are

My gun is pulled
I'm lying
Still can't see the enemy
Until I feel that bullet hit me (2x)

And they're sending the young ones out to the front
All prepared to kill the different colored one
In their army green suit and brand new shiny gun
Shoot the women and children and don't spare anyone
Defend our investments in a foreign land
In the name of democracy capitalism plan
Upon the shores wage the wars spill the guts onto the
sand
In the fields we kill in the name of uncle sam

Wave the flag wave the flag
Drop the bomb drop the bomb (2x)

My gun is pulled
I'm lying
Still can't see the enemy
Until I feel that bullet hit me (2x)

I denounce this American holy war
Where dollar is God
In God we kill
God destroy
To the wasted lives
Those who died those who died
Those who gave their lives
Those who died those who died

One by one
We are all marching one by one

My gun is pulled
I'm lying

Still can't see the enemy
Until I feel that bullet hit me (2x)

Did you want to inject them
With a global disinfectant
Try to cleanse and protect them
From themselves from themselves
Made the separation
God and state civilization
Go fuck all the other nations
Under God under God (2x)under God
