Feel myself getting I'll by your generosity We fight we  
scream you pack up can't get away from me You call it  
torture I call it unconditional love You never leave me I  
treat you just like shit

"It's just you," she said, "I'm so frightened by the  
things that you do" Invisible she said, "it's the only  
thing that I'm good for"

And on my soul you bled with welfare dollars fed You  
lay around naked you yelled and screamed for more  
woke up this morning got right out of bed same thing  
as yesterday get drunk get high and act real dead

"It's just you," she said, "I'm so frightened by the  
things that you do" Invisible she said, "it's the only  
thing that I'm good for"

Shot gun plastered to my hand I'm blasting through the  
front door Fill you full of lead so cool, Dying in the  
street man we got good seats to this sick town  
runaround hit you when you're looking down
