I thought I heard you say forever  
But buildings burn and people fade to grey  
You were you fucking beautiful  
But now only fallen black tears  
Fill this glass  
Pour it out  
And watch  
The sunset  
Drown  
In night time  
Heart break  
Time  
Oh it's heart break time

The view... is so... fuckin... special

When cars are parking on your chest  
At least you can see the sunset  
When cars are parking on your chest  
At least you can see the sunset  
The sunset

But without you  
It's so unclear.  
So clouded when  
Your not around  
You may notice  
These tiny things before you die  
Be sure to mail them to me  
So we can dream, we can dream at night  
Of hearts that didn't break  
Of souls that never cried  
Of wrists that never bled  
Your fucking fake

This time will end, but your scars cut deep  
Let's just pretend, that our love lasts  
(Fake...)  
This time will end, but your scars cut deep  
Let's just pretend, that our love lasts  
Forever

The end comes  
With the sound  
Of a blade dancing though  
Our veins.  
Everyday is dead  
Without you  
Will you please  
Be my valentine?
