

## Dayna Manning "Springtime"

Visit "[Springtime](#)" on [MotoLyrics.com](https://MotoLyrics.com)

He loved me good, he loved me long  
And it felt better than it felt wrong  
And if he had stayed, just one more day  
You might not find me back this way

Cause I've been through your summers, your winters,  
your falls  
And he has been my springtime, through them all  
And I may love the summers, the winters and falls  
But springtime is my favorite season of them all

You guessed my game and you called me out  
You knew what i was all about  
And I told you the truth, though it hurt you so  
I've been so bad and it's good you know

Cause I've been through your summers, your winters,  
your falls  
And he has been my springtime through them all  
And I may love the summers, the winters and falls  
But springtime is my favorite season of them all

And time will tell if I'm wrong or right  
But baby I'm sleeping through the nights

And I've been through your summers, your winters,  
your falls  
And he has been my springtime through them all  
And i may love the summers, the winters and falls  
But springtime is my favorite season of them all  
Oh I've been through your summers, your winters, your  
falls  
But springtime is my favorite season of them all
