

## Days Difference "Faltering"

Visit "[Faltering](#)" on MotoLyrics.com

I am driving  
Far from here  
Into oceans of  
Distant clear

If I turn my back on what I should face  
Will it dissipate?

I'm faltering, faltering  
But still trying to stand my ground  
It's altering, altering  
Changing who I am

You've been drinking  
Your pain waway  
But it's just begun  
To take toll and shape

Will you find what you're looking for  
At the bottom of everything?

You're faltering, faltering  
But stil trying to catch your breath  
It's altering, altering  
Changing who you are

Light up the night, light up the night  
Light up the night, light up the night

Will you promise me you'll always be  
True to yourself?

We're faltering, faltering  
But we'll never give up ground  
It's altering, altering  
But we'll never change, change
