

Days Difference "Stay"

Visit "[Stay](#)" on MotoLyrics.com

There's more to life than compromise
He says to her
There's more to this than your own bliss
He says again

Don't you say your last goodbye
And throw away this beautiful life

Never lose your pretty smile
And its timing too
Never lose your innocence
It's shining through

Don't you say your last goodbye
And throw away this beautiful life
Stay, please stay

I won't let you down, I won't let you down, no
I won't let you down, I won't let you down, no
I can't let you go

She turns to walk away
But he runs after her

Don't you say your last goodbye
And throw away this beautiful life

Stay, please stay
