Days In December
"Ask A Stupid Question"

Savor me - Yeah
Any time I sing for you
While I float through all the times, I fell in love

You feel too real. I find whatÂ's in your mind
You fall so low. Come back before we lose it all

Now it seems IÂ'm alone Â... waiting for myself to heal
To feel so low

Dig for me down low

I gave all my gold to you
And we owe it to ourselves, for what we know

IÂ'll break for you

This is this the world within, to me
Break away the life leading me

Take from me
The taste of truth
Dead or alive
By burning up inside
