So hold me down!  
Turning left to get back to the start  
If you're right (if you're alright)  
And now were gone!  
This is more than you deserve  
Swallow the pill

I'm not aware  
And I found it again  
But the answers never came

The first time you never lied  
Once more will you prove it to me?

Tell me I'm right  
It falls together on grounded sky  
We come and go  
And I won't take this blood and romance anymore

Break down these walls!  
Now it's time to tear this all apart  
Rebuild what once was mine  
Self-righteous change!  
This is more than you deserve

Live for the kill

No more despair  
Hope is rising again  
When we break through the rain

The last time I never tried  
Blank faces stare right through me

Tell me I'm right  
It falls together on grounded sky  
We come and go  
And I won't take this blood and romance anymore

Till the end of time  
Till the end of time  
Till the end of time (so sing along with these empty

words)  
Till the end of time

And I remember when it all was new  
And I remember when it all was new  
And I!  
Was right!
