It's a shame, how you left me here  
To die.  
All I know, it I made you  
Cry.  
But it's hard  
To say goodbye.

Come back to me right now.  
Come back to me right now.  
Come back to me right now.  
Girl I'm threw, hurting you.

I'm alone, in my room.  
St-airing hard day dreaming  
Of you.  
From what I put you threw.  
Girl I'm threw,  
Hurting you.

Come back to me right now.  
Come back to me right now.  
Come back to me right now.  
Girl I'm threw, hurting you.

Come back to me right now.  
Come back to me right now.  
Come back to me right now.  
Girl I'm threw, hurting you.

Come on, Come on, and just trust me.  
Girl come on and just trust me.  
Come on, Come on, and just trust me.  
Girl come on and just trust me.  
Come on and just trust me.  
Girl come on and just trust me.  
Come on and just trust me.  
Girl come on and just trust me.
