[Micky]

It's the same cases everyday  
A place that produces an endless amount of deaths  
Did compassion disappear from this land?

[Hero]

I won't see it anymore  
I won't hear of the crashing reality  
Don't calculate everything by it's worth  
People are an important existence

[All]

Tears of blood are falling again because of our dulled hearts  
What will motivate me now?  
Like the things that once filled out worlds with beauty  
The dreams we had for the future died

[Micky/Max]

No one can take it  
There are no tears to shed  
I can't take the pain that is penetrating deeply through my bones

[Max]

You got the power!  
You have the power to make things right  
Don't waste and light the talks that concern humanity

[All]

Tears of blood are falling again because of our dulled hearts  
What will motivate me now?  
Like the things that once filled out worlds with beauty  
The dreams we had for the future died

[Xiah]

Look at the eyes of the ones you love  
Don't you see their happiness?

[Hero]

Tell them that this world is full of valuable things

[BoA]

What do I do?

I am standing silently in front of the things that people  
have thrown away

This is not right

What do I do? I'm diseased

I can't bare to just stand stll and watch this happen

[The TRAX]

Someday, one day

Next to the problems that you have thrown away

You were left behind and I was left behind

Don't observe other people's pains with joy

It will become a boomerang

One flow we want the flow we got the flow we want the  
flow

[All]

I got the flow, show now I growling on earth

What do you want to show us? It's so funny I say no!

[U-know/Micky]

We don't want it anymore

I believe that you can change it, even in the darkness

All the way to the end of the sword

[U-know/Max]

No one can take it

There are no tears to shed

I can't take the pain that is penetrating deeply through  
my bones.

[All]

Show us the pain of your broken hearts

So that I can help you

Show me the road

Like the things that fill this world with beauty

We have to make it so that we will treasure this place
