We started with a struggle cause nothing ever comes
easy
Now blocking out the sunshine hard for me to say
Yeah even though your talking I really ain't
understandin'
Push the clouds to the side now right here with my
brother and
Standing right next to you, making the hits, with the
rest of the crew
Yeah this is who I wanna be this is what I am
We all together we it all goes down yeah

Wake up x2
Oh today is the day ya'll
I know x2,
Yeah we can work it out now
We will find a way cause it's a beautiful day

Wake up x2
Let's bring it all together now
I know x2
This time's never been better 'cause x5
All I wanna say cause it's a beautiful daaayyy yeah
