Follow the sun
Follow the sun
Leaving the rain behind
Together we'll be in harmony
Taking the time we will find our way

Sunshine, I feel the energy
I need sunshine pouring down on me now
Sunshine, don't you hide away
I want sunshine, each and every day

Sunshine, I feel the energy
I need sunshine pouring down on me now
Sunshine, don't you hide away
I want sunshine, each and every day

Sunshine, I feel the energy
I need sunshine pouring down on me now
Sunshine, don't you hide away
I want sunshine, each and every day
