(Get up 'n move - S & K)

Get up 'n move
S&K can make ya
Get up 'n move

Hold on tight as I make you fly, way up high be right by
my side
A critical danger body's pumpin',
Feet just stompin' heartbeat thumping
I feel something moving me fast, S&K gonna make it
last
A dope track go you screaming for,
Something more than just dancefloor

More than dopesounds I can hit ya,
Come get down the music pitcher
Unbelievable the way I flow,
Don't need a band gonna kick it solo
Me and K, I mean K and I,
Jammin' track we're gonna make you fly
It's brandnew now that you gonna do when
Sugadaddy hits the groove

Get up 'n move
S&K can make ya
Get up 'n move

Don't stop moving hold on tight,
Sugadaddy unloads your going all night
Can't fight the groove,
Can't stop the flow, here I come and competition goes
A few places I need to see, where I need to be come on
with me
Jam to this until you fall straight down
And don't stop till you're laying on the ground
I rhyme better than you heard before
And I won't stop until you scream for more
Aw it's so raw let me kick it one time,
Feel the magic of my brandnew rhyme

Just step back feel fat tracks,
You'll get jacked now how you like that
It's brandnew now what you gonna do,
When Sugadaddy hits the groove

Get up 'n move
S&K can make ya
Get up 'n move

Get up 'n move
S&K can make ya
Get up 'n move

More than dopesounds I can hit ya,
Come get down the musicpitcher
Unbelievable the way I flow,
Don't need a band gonna kick it solo
Me and K , I mean K and I,
Jammin' track gonna make you fly
It's brandnew now that you gonna do,
when Sugadaddy hits the groove

Get up 'n move
S&K can make ya
Get up 'n move

Get up 'n move
S&K can make ya
Get up 'n move

S&K can make ya
Get up 'n move
