[33 second Intro]

I'm a girla dn your a boy
We're to old to play with toys
Won't you tell me what's your name
You could be my brandnew game
Would you be good(said super fast)
And roll the dice I would smile and break the ice
Tell me how could I resist when your my favorite kiss

Kissy Kissy makes me happy
Honey, Honey sweet as candy
Kissy kissy take my hand and
Come along with me

Kissy Kissy makes me happy
Honey, honey sweet as candy
Kissy kissy love is where with you
My sugar bee

[11 second Instrumental]

See the moon and see the sun
Shining down on everyone
They know how in love we are
Have them tell it to a star
There's no mountain
There's no sea
That can keep your love away from me
No matter what the distance is
Your still my favorite kiss
Kissy Kissy makes me happy
Honey honey sweet as candy
Kissy kissy take my hand and
Come along with me

Kissy Kissy makes me happy
Honey, honey sweet as candy
Kissy kissy love is where with you
My sugar bee

La la la
Tell me what your secret is
La la la

Oh, won't you let me know
La la la
Nothing makes me feel like this
La la la
Cause' your still my favorite kiss

[20 second Instrumental]
